

Manufacturer of Decorative Concrete Systems

CSI, ChemSystems Inc. manufactures a full line of color and cement based admixtures serving the needs of the decorative concrete industry worldwide. Key product lines include integral & dry-shake colors, Microtoppings, Stampable overlays, acid stains, precast systems, solvent and water-based dyes, bonding agents, liquid & powder release agents, cures, cure and seals, sealers and high performance coatings. In addition to a very extensive line of standard colors and package offerings, we are capable of making custom colors and packaging to meet our customers' individual needs.

At *CSI* we do not strive to be the biggest, but rather focus on color consistency, product quality, and personalized customer service. We not only offer a full line of products, but specialize in tailoring products and colors to meet a specific project or customer requirement.

Helix Color Systems provides a fresh and innovative approach to decorative concrete. By combining *ChemSystems'* 20 years of manufacturing experience with the technical and marketing expertise of industry experts, Helix Color Systems provides products and services for the discriminating installer, architect, owner or designer.

Helix Color Systems supports environmentally sound building practices with the **Helix Green** line of Eco-Friendly products that will help specifiers towards qualifying for Leeds Certification.

Helix Color Systems are sold through a worldwide network of distributors who specialize in decorative concrete. We encourage all of our customers to utilize our experience and know-how as a resource to increase their business. We personally want to welcome you to visit our web site, and we look forward to assisting you with your decorative concrete needs.

History

ChemSystems, Inc. is a Texas corporation formed in 1996 by Bruce & Nancy Meikle. The Meikles purchased the assets of Jancik Concrete Specialties, Inc. and Houston Building Supply.

Prior to purchasing Jancik, Mr. Meikle was a Corporate Vice President at Bayer Corporation where he spent 26 years. Jancik and HBS have supplied concrete additives into the south-central USA and Mexican markets since 1972.

In 2009, Chris Sullivan joined ChemSystems, heading up sales and marketing. The company greatly expanded their product offering, as well as their sales focus into the northern central and southeastern US.

In 2011 Jessica Davis, daughter of Bruce and Nancy, joined ChemSystems and is responsible for day to day operations.

This company, as well as its owners, prides itself on service and responsiveness! CSI is environmentally conscience, meeting all Federal and State VOC manufacturing guidelines.

The company presently operates manufacturing, warehousing and office facilities in Houston, TX, Ft. Worth TX, Kansas City KS, and Denver CO.
