

## SUARNABHUMI AIRPORT - THAILAND

The new airport Suvarnabhumi is located on a bog, 3,100ha site in the Samut Prakarn province of Thailand at Nong Ngu Hao (translated as Cobra Swamp), 30 km east of Bangkok. Construction of Suvarnabhumi Airport began in January 2002 and was finished in September 2006.

The constructions below (9.200 pieces) at the Suvarnabhumi Airport were all treated, with ZINGA, some of them by means of dipping.  
The main contractor was Italian – Thai Company Limited.

**System:**  
ZINGA 1 x 50 µm
