

TEAIS activity is focused on manufacturing and marketing products and special systems for construction and industry, with more than 35 years of experience. In the 80's the company began its activity manufacturing special products for waterproofing.

The trinomial product-system-solution is the focal point that has been the growing factor and prestige of its products, recognized them always as premium quality and performance.

Since the beginning, the company has been committed with development and innovation because a higher level of this sense make the companies stronger and this fact makes that the products and process of the companies become different from competitors. This activity provides social advances such as quality of life, environment improvements, etc.

Opting for these values provides advances and major improvements in the competitiveness, having satisfied clients, motivated and committed employees, new employment opportunities and better conditions of life, share our vision with clients and create an environment that encourages the knowledge creation.

As a result of this engagement, we don't just sell premiums building products, but "WE PROVIDE CONSTRUCTIVE SOLUTIONS" with a range of more of 500 products, some of them worldwide patented. Over these years, satisfaction and recognition of our clients has been the driver of the company growth. Nowadays it is a hallmark which makes us proud.

And this is the way, giving solutions that achieve complete customers' satisfaction, where we want keep sharing with you. The engagement with investigation, development and innovation made us one of the companies with more products and systems put on the market.

Our know-how and our premium products and services make the satisfaction of our customers in more of 20 international markets since 20 years. A clear example of this success is our alliance with Ta Group which currently positions us as a growing key partner from Lebanon and Middle Orient.
